CAREER OBJECTIVE

Passionate Full-Stack Developer and AI/ML Engineer dedicated to building intelligent, scalable, and impactful software solutions. Experienced in developing AI-powered applications, computer vision systems, and modern web platforms, with a strong commitment to innovation, continuous learning, leadership, and solving real-world challenges through technology.

SKILLS

Technical Skills:

Languages: Python, Java, C, C++, C#, TypeScript, JavaScript

Frontend Framework: React.js, HTML, CSS, Angular, Three.js

Backend Framework: Node.js, Express.js, .Net, Flask, Streamlit

Database: MySQL, Oracle, Firebase, Supabase, ChromaDB

AI/ML & GenAI: Machine Learning, Computer Vision, OpenCV, Generative AI, LLM Integration, Prompt Engineering, RAG, Vector Search, NLP, AI Chatbot Development

Cloud & Tools: AWS, Git, GitHub, REST APIs, Web Scraping, Postman, Blender, Vercel, Render, Railway

Soft Skills: Problem Solving, Teamwork, Communication, Presentation.

EXPERIENCE

Software Development Intern | Sunbeam Infotech

Dec 2025 – Jan 2026

- Developed a full-stack Generative AI chatbot using Streamlit, ChromaDB, web scraping, and LLM integration.
- Improved expertise in prompt engineering, vector search, and end-to-end AI application development.

Freelance Developer | TextileGuru

Mar 2025 – April 2025

- Developed an e-learning platform using React.js, Node.js, Express.js, MongoDB, and REST APIs.
- Enhanced platform performance, responsive design, and user engagement through optimized UI/UX.

PROJECTS

ThreadCounty

Live

Python, Flask, OpenCV, Computer Vision

- Built an AI-powered SaaS platform for automated warp and weft thread counting using computer vision and image processing.
- Developed an automated textile inspection system that analyzes fabric images and generates thread-count results for efficient textile analysis.
- Integrated a mobile application with the platform to provide accessible textile analysis and streamline the thread-counting workflow.

NotesPathv

Live

Next.js, TypeScript, Tailwind CSS

- Built an academic study materials platform organizing notes by subjects, units, and topics for quick and structured access.
- Developed a clean, distraction-free interface with optimized navigation and responsive layouts across desktop, tablet, and mobile devices.
- Implemented smooth animations and dark mode support to provide an engaging and accessible learning and revision experience.

3D Portfolio Website

Live

React.js, Three.js, JavaScript, Web Development

- Built an interactive 3D portfolio website using React.js and Three.js to showcase projects, technical skills, and achievements.
- Developed immersive 3D experiences and interactive visual elements to create an engaging portfolio interface.
- Designed a responsive modern frontend highlighting web development capabilities through interactive 3D components.

EDUCATION

DKTE Society's Textile & Engineering

Aug 2023 – Present

Bachelor of Technology in Artificial Intelligence and Machine Learning

CGPA : 7.3 / 10

DKTE Science Academy

2023 Passout

HSC

65.5%

Mount Litera Zee School

2021 Passout

SSC

80%

LEADERSHIP & CAMPUS AMBASSADOR

Google Student Ambassador

June 2026 – Present

Represent Google on campus by organizing workshops, promoting AI and developer technologies, and mentoring students.

GeeksforGeeks Campus Mantri

June 2026 – Present

Lead coding initiatives, organize DSA workshops and contests, and grow the campus developer community.

Technical Director - AISA

August 2025 – July 2026

Lead website development, backend systems, and technical operations for the AI student association.

EXTRA-CURRICULAR ACTIVITIES

- Participated in national-level paper presentations at TEXQUEST (ICT, Mumbai) and VASTRA (VJTI, Mumbai)
- Winner - Best Innovation, Shark Tank (MANEDGE 2026)
- Winner - Startx and 2nd Runner-Up - Paper Presentation at Textvision & Fashionova 2026
